

## CS995: Assignment Marking Scheme

The CS995 assignment is an individual assignment that should be completed within two weeks of it being issued. If sections of the program are found to be copied from another student, then associated marks will be deduced from the total awarded.

- The assignment is marked out of 10.
- Up to 2 marks will be awarded for commenting Python that is written.
- Up to 6 marks will be awarded for the structure of the Python.
  - Marks will be awarded for the Python classes and functions.
  - Marks will be awarded for the Python unit tests.
- Up to 2 marks will be awarded for the functionality of the program.
  - 1 mark will be awarded if the program partially works as required.
  - 2 marks will be awarded if the program works as required.
